Skills

- Languages: Java, JavaScript, SQL, C#, HTML5, CSS3, PHP
- Frameworks: ASP.NET Core MVC, Entity Framework, REST APIs
- Databases: SQL Server, MySQL, Oracle
- Tools: GitHub, Visual Studio, VS Code, Power BI, Jira, Microsoft
- Concepts: OOP, Data Structures, Algorithms, SDLC, Agile Scrum, Unit Testing

Professional Summary

Experienced in developing full-stack applications, building responsive web interfaces, and implementing database-driven solutions through academic and personal projects. Eager to contribute to collaborative teams while developing innovative, scalable, and high-quality software solutions. Knowledgeable in the Software Development Life Cycle (SDLC), Agile methodologies, testing, debugging, and version control. Strong analytical and problem-solving skills with a commitment to writing clean, maintainable code.

Professional Experience IT Technician | Park Springs | 2022–Present

- Supported software deployments, upgrades, testing, and troubleshooting using Git, GitHub, Azure DevOps, Docker, Visual Studio, and Postman to ensure reliable application releases and system performance.
- Diagnosed and resolved desktop, laptop, printer, and network connectivity issues, minimizing downtime and ensuring business continuity.
- Document incidents and technical procedures to improve support efficiency.
- Managed user accounts, passwords, permissions, and group policies using Active Directory and Microsoft Entra ID (Azure AD).

Web Developer | Richy Investments Concept Inc. | 2020–2022

- Implemented website enhancements, SEO improvements, and ongoing maintenance.
- Worked with clients to gather requirements and deliver customized solutions.
- Developed responsive websites using HTML, CSS, JavaScript, PHP, and SQL.
- Utilized Excel, SQL, and Power BI to analyze datasets, create reports and dashboards, identify trends, and support data-driven decision-making.

Tier II System Administrator Intern | Gwinnett Technical College | 2021–2022

- Assisted with software deployment, configuration, troubleshooting, with GitHub, Visual Studio, SQL Server, Microsoft 365, Active Directory, and Windows Server to ensure reliable application performance and timely issue resolution.

- Provided Tier II technical support for hardware, software, network, and database-related issues by troubleshooting windows environments.
- Collaborate with technical teams to resolve application issues and improve system reliability.
- Created technical documentation and supported end users.

Education

- MGA | Bachelor of Science in Information Technology | GPA 3.6 | May 2026
- GTC | Associate of Applied Science – Web Development & Design | GPA 3.8 | Dec 2022

Certifications

- Cybersecurity Certificate
- Scrum Master

Additional Highlights

- Strong problem-solving and analytical skills.
- Experience working in Agile and collaborative environments.
- Collaborated with teams to resolve complex technical issues and improve IT processes and user experience.
- Educating users on cybersecurity awareness, phishing prevention, password security, and data protection best practices**.**
